

Ride to Heal

The mission of the Ride to Heal Foundation is to raise funds and provide awareness of serious illnesses facing members of our community through long distance bicycle rides. Your donations will help to provide the funding needed to improve the quality of life of those afflicted. The funds raised this year will be divided between two worthy organizations Center for AIDS Research and Treatment "CART" and the Huntington Townwide Fund.

The CART organization provides specialists to evaluate, treat, and render emotional support to HIV/AIDS patients. Additionally they provide educational materials and seminars to educate patients and their families keeping them healthy and preventing the spread of the disease.

THE TOWNWIDE FUND of Huntington for over 45 years has continued to infuse local organizations with the financial support they need to provide health and human services. Most importantly, they are dedicated to keeping abreast of the needs of the member agencies and reviewing their programs and plans. This insures that donor contributions are returned to the community through the services provided.

We ride in memory of James Patrick Monks, who died from complications from AIDS in 1991. Organizations such as CART would have helped Jim to lead a longer and more fulfilling life. We miss him greatly. "Carpe Diem", as Jim would say - seize the day and help us support those in need.
